The LEA Superintendent or his/her authorized representative assures or certifies that:

The LEA will use ESSER funds for activities allowable under section 18003(d) of Division B of the CARES Act. The United States Department of Education **does not** consider the following to be an allowable use of ESSER funds, under any part of 18003: 1) subsidizing or offsetting executive salaries and benefits of individuals who are not employees of the SEA or LEAs or 2) expenditures related to state or local teacher or faculty unions or associations.

How will the LEA determine the most important educational needs as a result of COVID-19?

MCBOE has administered several surveys to its stakeholders to include parents, students, staff, and community leaders. Additional, the district has held focus groups sessions and established a district hot line and website for the purpose of capturing concerns, solving issues, and locating additional solutions relative to important educational needs as a result of COVID-19. Parents also have direct contact information for each principal and the superintendent and are active in social media where their comments are reviewed for improvement decisions. These responses have been analyzed to create a needs assessment for the use of funds from the CARES Act. According to the needs assessment, our priorities for Macon County Schools are extended day services for all student populations, technological acquisitions for on site and remote learning, health care services and equipment, other purpose services for student support such tutoring, counseling, and mental health.

How does the LEA intend to assess and address student learning gaps resulting from the disruption in educational services?

Macon County Schools will assess and address learning gaps by analyzing all data sources to include parent, student, staff, and community feedback from administered surveys, opinion polls, the review of academic assessment data, diagnostic tests, and pre-tests upon return to school in Fall 2020, and other valid and reliable sources to include the following strategies:

The State agencies or boards administering the programs covered by the application shall not require the submission or amendment of such application unless required by changes in Federal or State law or by other significant change in the circumstances affecting an assurance in such application.

6. Section 427 of the General Education Provisions Act Assurances

(a) The purpose of this section is to assist the Department in implementing the Department's mission to ensure equal access to education and to promote educational excellence throughout the Nation, by -

(1) ensuring equal opportunities to participate for all eligible students, teachers, and other program beneficiaries in any project or activity carried out under an applicable program; and

(2) promoting the ability of such students, teachers, and beneficiaries to meet high standards.

(b) The Secretary shall require each applicant for assistance under an applicable program (other than an individual) to develop and describe in such applicant's application the steps such applicant proposes to take to ensure equitable access to, and equitable participation in, the project or activity to be conducted with such assistance, by addressing the special needs of students, teachers, and other program beneficiaries in order to overcome barriers to equitable participation, including barriers based on gender, race, color, national origin, disability, and age.

(c) The Secretary may establish criteria and provide technical assistance for meeting the requirements of this section.

(d) Nothing in this section shall be construed to alter in any way the rights or responsibilities established under the laws cited in section 400(d) of this Act.

What steps does the LEA propose to take to permit students, teachers, and other program beneficiaries to overcome barriers (including barriers based on gender, race, color, national origin, disability, and age) that impede equal access to, or participation in, the program?

The use of teachers to provide homebound instruction will aid the district in overcoming barriers due to disability and other specialized populations. For communities and families, the establishment of after school programs at each school in conjunction with schools that are already 21st CCLC will help to eradicate barriers such as gender, race, disability, etc that impede equal access or participation in programming. Community and family education for parents and families will be an employed strategy for overcoming barriers.
